

# Warranty

Global Filters Corp ("GFC") warrants that each new product manufactured by GFC will be made free of defects in workmanship and material. GFC will replace any product found to be defective when you return it to GFC or to your GFC distributor where you purchased the product.

## Return Process

You should first contact your salesperson at GFC or at your GFC distributor if you purchased a product that you believe does not meet the warranty stated above. The salesperson will help you complete the necessary paperwork, and will also help you return the suspected defective product to GFC for analysis.

## Warranty Fulfillment

If GFC finds that a returned product does not meet the warranty stated above, GFC will promptly replace the defective product. If the defective product directly caused damage to the machine on which it was installed, GFC will promptly reimburse the machine owner for that portion of the repair costs that were necessary to restore the machine to its condition immediately prior to the damage caused by the defective product.

## Conditions

GFC's warranty fulfillment obligations above do not apply if: a) the product is not returned to GFC for analysis, b) GFC finds that the product was not defective, c) the product was improperly installed or used, d) the product was reused or not replaced inside a normal service interval, or e) the product is tampered with or damaged in a manner that may inhibit GFC's ability to conduct a warranty investigation.

**The above warranty and warranty fulfillment obligations are exclusive and in lieu of all other warranties or related remedies. GFC is not liable for indirect, incidental, punitive or consequential damages arising in any way from the products it manufactures or sells.**
